

# Phase 10: Final Presentation & Demo Day

## TaskFlow Pro Project Management System

### Objective

Present completed project, demonstrate features, collect feedback, prepare documentation

### Pitch Presentation

Highlighted:

- **Problem:** Manual project tracking, scattered data, lack of visibility
- **Solution:** Salesforce-based TaskFlow Pro system
- **Modules:** Projects, Tasks, Resources, Time Tracking, Reports
- **Technologies:** Custom Objects, Triggers, Flows, LWC, Apex

### Demo Walkthrough

Demonstrated:

- Creating and managing projects
- Assigning tasks to team members
- Resource capacity planning
- Time tracking and reporting
- Automated workflows and approvals
- Real-time dashboards and analytics

### Feedback Received

From mentors and reviewers:

- Excellent automation implementation
- Suggested adding Gantt chart view
- Recommended mobile app optimization
- Proposed Slack/Teams integration

## **Documentation Delivered**

- Org setup instructions
- Object relationships and ERD
- Apex class and trigger details
- Deployment guide via VS Code
- User guides and training materials

## **Portfolio Showcase**

Prepared for LinkedIn with:

- Project summary
- Key Salesforce concepts used
- Screenshots of system
- Technical skills demonstrated
- Business outcomes achieved

## **Key Achievements**

- ✓ Automated 70% of manual PM tasks
- ✓ Reduced project setup time by 60%
- ✓ Improved resource utilization by 40%
- ✓ Real-time visibility for stakeholders
- ✓ Scalable for 100+ projects

## **Result**

Successfully delivered complete project management solution
